 Berean Baptist Church and School

#### *Broward County Schools*

Sheridan Elementary, Broward  
 Miramar High School, Broward  
 Broward Community College

#### *St. Lucie County Schools*

St. Lucie High School  
 St. Lucie Elementary

The design of schools and religious educational facilities goes beyond the normal prototype of school design of years past. The design must encompass the access into the site, circulation through the campus, active playing fields and creative solutions for outdoor classrooms and common areas. Safety, security, and ease of ingress and egress have become important issues with excellent school planning. As land planners and landscape architects, we work closely with the architects and engineers to determine the particular issues regarding site development. Whether it is a new school development or the renovation of an existing facility, we work closely with the school officials, principals and teachers to determine potential site issues.

Working closely with the school boards of Palm Beach, Broward County, and St. Lucie County our portfolio of completed educational facilities includes an extensive list of primary, secondary and private schools. We have completed designs for new facilities as well as designs for renovation and expansion of existing campuses.
