- Belle Glade Business Park,
Palm Beach County

The best method to signify a concept, project an image or demonstrate a lifestyle is through the use of dynamic entry features. Signage, logo designs, and entrance features are the essential identifying elements of a project. A spellbinding entrance compels buyers to see what is inside. The signage and logo design reveals the image and concept of a residential community or a commercial center. At Land Design South, our knowledge of graphics and market trends gives us an edge in designing signage systems which best portray the concept and intent of the project. We have completed designs for waterfall entries featuring elaborate fountains, guardhouse structures and lushly landscaped boulevards.

The design of entry features and gateway signage extends to municipalities and civic uses. Land Design South has completed numerous streetscape designs throughout Palm Beach County and surrounding communities.

Lakeridge Falls Guardhouse, Palm Beach County
